**Tips for Your Comfort and Safety:**

- Bicycles are transported at no charge for paying passengers.
- Bus bike racks are available on a first come, first served basis. Each rack can carry only two bicycles.
- Bicycles can only be transported on the bike rack.
- Battery or electric-powered bicycles, if power was installed by the manufacturer, are only allowed on the bike racks.
- Fold-up bicycles, battery operated scooters and skateboards are allowed inside the bus if stored out of the aisle.
- Gasoline-operated bicycles or scooters are not allowed in the bus or on the bike racks.
- Passengers are responsible for unfolding/folding the bike rack as well as loading, securing and removing their bicycle.
- Bicycles must fit in the rack and be secured with the system attached to the rack. Personal locks, chains or other securement devices should not be used.
- Passengers using the bike rack should exit the bus through the front door and, if possible, sit close to the driver so your bicycle is not forgotten.
- When not in use, the bike rack should always be folded in the upright position.
- Sun Tran is not responsible for lost, stolen, damaged bicycles or bicycle accessories.
- Please call Sun Tran’s Customer Service Department at 792-9222 if you’ve left your bicycle on a bus by mistake.

---

**Bike Lockers**

Sun Tran has a limited number of bicycle lockers for rent at the following locations:

- Laos Transit Center

A Bicyclist’s Best Way to Ride

Tucson is one of the premier bicycling cities in the country. With our abundant good weather and the numerous health and environmental benefits associated with bicycling, it makes sense to get on your bike and ride. That’s why Sun Tran created our Bike & Ride program. Bike racks are mounted on the front of all Sun Tran buses and can hold up to two bicycles at a time.

With Bike & Ride, you can transport your bicycle just about anywhere, including work, special events, parks and favorite bike paths all across Tucson, at no extra charge! Sun Tran is the smart way to get around town.

Best of all, by riding Sun Tran, you save money, help reduce pollution and ease traffic congestion.

For complete trip planning assistance, or for further information about Sun Tran’s Bike & Ride Program, call Sun Tran at 792-9222 (TDD: 628-1565) or visit our website at www.suntran.com.

Using the bike racks:

Loading

1. When the bus arrives at your stop, tell the driver you’d like to use the bike rack.
2. If the bike rack is in the upright position, lower it by releasing the latch and lowering the rack until it is horizontal with the road.
3. Place your bicycle on the rack in the wheel slots closest to the bus. If there is already a bike on the rack, load yours in the opposite direction in the outer wheel slots.
4. When your bike is loaded, lift the tire hook over the front tire.
5. Remove any loose items from the bike and board the bus.

Unloading

1. At your stop, remind the driver you need to unload your bicycle.
2. Lift the tire hook from your bicycle and lift the bicycle off the rack to the curb.
3. If no other bicycles are on the rack, please return the rack to its upright and locked position.
4. Return to the curb and signal the driver that you are clear of the bus.

For safety’s sake, Sun Tran would like to remind you to always wear a helmet when riding your bicycle. Secure the bicycle with the tire hook and bar.

To release the bicycle rack, either lift the latch or pull up on the handle located near the top of the rack.
